LDA 2009-08-01

**AN ORDINANCE AMENDING THE ZONING ORDINANCE  
OF THE TOWN OF SOUTHERN SHORES**

**ARTICLE I. Purpose(s) and Authority.**

**WHEREAS**, the Town of Southern Shores (the “Town”) may enact and amend ordinances to protect the health, safety, and welfare of its citizens under North Carolina General Statutes § 160A-174; and

**WHEREAS**, the Town may enact and amend ordinances regulating the zoning and development of land within its jurisdiction under North Carolina General Statutes § 160A-381; and

**WHEREAS**, the Town may regulate the use and construction of telecommunications towers and facilities within its jurisdiction under North Carolina General Statutes §§ 160A-400.50 – 400.53; and

**WHEREAS**, the Town Council for the Town of Southern Shores (the “Town Council”) finds that telecommunications and in particular cellular telephone communications are an integral part of today’s society and will continue to be an integral part of society including the lives of the citizens of the Town; and

**WHEREAS**, the Town Council further finds that telecommunications facilities including antennae, towers and other structures may potentially endanger the citizens and visitors of the Town or damage the aesthetics and historical nature of the Town unless regulated; and

**WHEREAS**, the Town Council finds that it is in the interest of the public's health, safety, morals and general welfare that the Town’s Zoning Ordinance be amended as stated below.

**ARTICLE II. Construction.**

For purposes of this Ordinance, underlined words (underline) shall be considered as additions to existing Town Code language and strikethrough words (~~strikethrough~~) shall be considered deletions to existing language. Any portions of the adopted Town Code which are not repeated herein, but are instead replaced by a “...” shall remain as they currently exist within the Town Code.

**ARTICLE III. Amendment of Zoning Ordinance.**

**NOW, THEREFORE, BE IT ORDAINED** by the Town Council that the Town’s Code of Ordinances shall be amended as follows:

**PART I.** That Chapter 36 Section 36-202 be amended as follows:

1 (b) *Permitted uses.* The following uses shall be permitted by right:

2 ...

3 (8) Short Telecommunications Towers in compliance with the requirements of Section  
4 36-175.

5  
6 (9) Co-Located wireless facilities in compliance with the requirements of Section 36-175.

7 ...

8  
9 (c) *Conditional uses permitted.* The following uses are permitted subject to the requirements of  
10 this district and such additional regulations and requirements as may be imposed by the town  
11 council as provided in article X of this chapter:

12 ...

13 (6) Tall Telecommunications Towers in compliance with the requirements and  
14 conditions of Section 36-175.

15  
16 **PART II.** That Chapter 36 Section 36-203 be amended as follows:

17  
18 (b) *Permitted uses.* The following uses shall be permitted by right:

19 ...

20 (10) Short Telecommunications Towers in compliance with the requirements of  
21 Section 36-175.

22  
23 (11) Co-Located wireless facilities in compliance with the requirements of Section 36-  
24 175.

25 ...

26  
27 (c) *Conditional uses permitted.* The following uses are permitted subject to the requirements of  
28 this district and such additional regulations and requirements as may be imposed by the town  
29 council as provided in article X of this chapter:

30 ...

31 (4) Tall Telecommunications Towers in compliance with the requirements and  
32 conditions of Section 36-175.

33  
34 **PART III.** That Chapter 36 Section 36-204 be amended as follows:

35  
36 (b) *Permitted uses.* The following uses shall be permitted by right:

37 ...

38 (5) Short Telecommunications Towers in compliance with the requirements of Section  
39 36-175.

40  
41 (6) Co-Located wireless facilities in compliance with the requirements of Section 36-  
42 175.

43 ...

44  
45 (c) *Conditional uses permitted.* The following uses are permitted subject to the requirements of  
46 this district and such additional regulations and requirements as may be imposed by the town  
47 council as provided in article X of this chapter:

48 ...

49 (4) Tall Telecommunications Towers in compliance with the requirements and  
50 conditions of Section 36-175.

51  
52 **PART IV.** That Chapter 36 Section 36-205 be amended as follows:

1  
2 (b) *Permitted uses.* The following uses shall be permitted by right:

3 ...

4 (7) Short Telecommunications Towers in compliance with the requirements of Section  
5 36-175.

6  
7 (8) Co-Located wireless facilities in compliance with the requirements of Section 36-  
8 175.

9 ...

10  
11 (c) *Conditional uses permitted.* The following uses are permitted subject to the requirements of  
12 this district and such additional regulations and requirements as may be imposed by the town  
13 council as provided in article X of this chapter:

14 ...

15 (6) Telecommunication array and accessory equipment on publicly owned water towers,  
16 with the approval of the public entity which owns the water tower and in accordance  
17 with section 36-207(e)(8)b and e in compliance with the requirements and conditions  
18 of Section 36-175.

19  
20 (7) Tall Telecommunications Towers in compliance with the requirements and conditions  
21 of Section 36-175.

22  
23 **PART V.** That Chapter 36 Section 36-206 be amended as follows:

24  
25 (b) *Permitted uses.* The following uses shall be permitted by right:

26 ...

27 (7) Short Telecommunications Towers in compliance with the requirements of Section  
28 36-175.

29  
30 (8) Co-Located wireless facilities in compliance with the requirements of Section 36-175.

31 ...

32  
33 (c) *Conditional uses permitted.* The following uses are permitted subject to the requirements of  
34 this district and such additional regulations and requirements as may be imposed by the town  
35 council as provided in article X of this chapter: ~~community recreation facilities, including golf~~  
36 ~~courses, tennis courts, community centers, libraries, picnic areas, and concessions integral~~  
37 ~~thereto, provided that there is no open commercial activity, and no sign other than a directional~~  
38 ~~noncommercial sign is allowed.~~

39 ...

40 (1) Community recreation facilities, including golf courses, tennis courts, community  
41 centers, libraries, picnic areas, and concessions integral thereto, provided that there is  
42 no open commercial activity, and no sign other than a directional noncommercial sign  
43 is allowed.

44  
45 (2) Tall Telecommunications Towers in compliance with the requirements and conditions  
46 of Section 36-175.

47  
48 **PART VI.** That Chapter 36 Section 36-207(b) be amended as follows:

49  
50 (b) *Permitted uses.* The following uses shall be permitted by right:

51 ...

1 (9) Short Telecommunications Towers in compliance with the requirements of Section  
2 36-175.

3  
4 (10) Co-Located wireless facilities in compliance with the requirements of Section 36-  
5 175.

6 ...

7  
8 **PART VII.** That Chapter 36 Section 36-207(c)(8) and all of its subsections be replaced in their  
9 entirety with the following:

10  
11 (8) Tall Telecommunications Towers in compliance with the requirements and conditions  
12 of Section 6.13 of this Zoning Ordinance.

13 ...

14  
15 **PART VIII.** That Chapter 36 Section 36-57 be amended as follows:

16  
17 **Sec. 36-57. Definition of specific terms and words.**

18  
19 ...

20 ~~*Co-location of telecommunication antennas:* The siting of two (2) or more providers'~~  
21 ~~wireless communication antennas on the same telecommunication tower.~~

22 ...

23  
24 ~~*Geographic antenna coverage area:* The general vicinity within which an antenna serves~~  
25 ~~the transmission requirements of a cellular or other broadcasting network.~~

26 ...

27  
28 ~~*Telecommunications accessory equipment structure:* A building or cabinet like structure~~  
29 ~~located adjacent to, or in the immediate vicinity of a wireless telecommunications tower~~  
30 ~~or antenna to house equipment incidental to the receiving or transmitting of wireless~~  
31 ~~broadcasts, cellular telephone calls, voice messaging and paging services.~~

32  
33 ~~*Telecommunication tower:* A freestanding structure intended to support one (1) or more~~  
34 ~~telecommunication antennas.~~

35 ...

36  
37 ~~*Tower, monopole:* A slender self supporting tower used to support telecommunications~~  
38 ~~equipment.~~

39 ...

40  
41 **PART IX.** That Chapter 36 Section 36-175 be added as follows.

42  
43 **Sec. 36-175. Wireless telecommunications sites and towers.**

44  
45 (a) Definitions. The following definitions shall apply to all portions of the Town Code relating  
46 to the use or construction of telecommunications towers and facilities within the Town.

47  
48 (1) Antenna: Communications equipment that transmits and receives electromagnetic  
49 radio signals used in the provision of all types of wireless communications services.

50  
51 (2) Application: A formal request submitted to the city to construct or modify a wireless  
52 support structure or a wireless facility.

53

1 (3) Building permit: An official administrative authorization issued by the city prior to  
2 beginning construction consistent with the provisions of NC G.S. 160A-417.

3  
4 (4) Collocation: The installation of new wireless facilities on previously-approved  
5 structures, including towers, buildings, utility poles, and water tanks.

6  
7 (5) Equipment enclosure: An enclosed structure, cabinet, or shelter used to contain radio  
8 or other equipment necessary for the transmission or reception of wireless  
9 communication signals.

10  
11 (6) Fall zone: The area in which a wireless support structure may be expected to fall in  
12 the event of a structural failure, as measured by engineering standards.

13  
14 (7) Geographic antenna coverage area: The general vicinity within which an antenna  
15 serves the transmission requirements of a cellular or other broadcasting network.

16  
17 (8) Land development regulation: Any ordinance enacted pursuant to this Part.

18  
19 (9) Search ring: The area within which a wireless facility must be located in order to  
20 meet service objectives of the wireless service provider using the wireless facility or  
21 wireless support structure.

22  
23 (10) Telecommunications accessory equipment structure: A building or cabinet-like  
24 structure located adjacent to, or in the immediate vicinity of a wireless  
25 telecommunications tower or antenna to house equipment incidental to the receiving or  
26 transmitting of wireless broadcasts, cellular telephone calls, voice messaging and paging  
27 services.

28  
29 (11) Tower, monopole: A slender self-supporting telecommunications tower.

30  
31 (12) Tower, short telecommunications: A telecommunications tower with a height that is  
32 less than seventy (70) feet.

33  
34 (13) Tower, tall telecommunications: A telecommunications tower with a height that is  
35 seventy (70) feet tall or greater up to a height of one hundred ninety five (195) feet tall.

36  
37 (14) Tower, telecommunication: A freestanding wireless support structure intended to  
38 support one (1) or more wireless facilities.

39  
40 (15) Utility pole: A structure that is designed for and used to carry lines, cables, or wires  
41 for telephone, cable television, or electricity, or to provide lighting.

42  
43 (16) Wireless facility: The set of equipment and network components, exclusive of the  
44 underlying support structure or tower, including antennas, transmitters, receivers base  
45 stations, power supplies, cabling, and associated equipment necessary to provide wireless  
46 data and telecommunications services to a discrete geographic area.

47  
48 (17) Wireless support structure: A new or existing structure, such as a monopole, lattice  
49 tower, or guyed tower that is designed to support or capable of supporting wireless  
50 facilities. A utility pole is not a wireless support structure.

1 (18) Wireless telecommunications site: The combination of all of the materials and  
2 equipment on a site used to provide wireless telecommunications service including, but  
3 not limited to, any wireless support structures, telecommunications towers, wireless  
4 facilities, antennae, telecommunications accessory equipment structures and equipment  
5 enclosures.

6  
7 (b) Streamlined Collocation Procedures. Applications for collocation entitled to streamlined  
8 processing under this section shall be reviewed for conformance with applicable site plan and  
9 building permit requirements, but shall not otherwise be subject to zoning requirements,  
10 including design or placement requirements, or public hearing review. To be entitled to  
11 streamlined collocation procedures an applicant must meet the requirements of subsection (1),  
12 subsection (2) or the requirements of both. Otherwise, applications for collocation shall be  
13 treated as an application for a new wireless telecommunication site, telecommunication tower or  
14 wireless facility.

15  
16 (1) An application for collocation meets the requirements entitling an applicant to  
17 streamlined collocation procedures if the addition of the additional wireless facility does  
18 not exceed the number of wireless facilities previously approved for the wireless support  
19 structure on which the collocation is proposed and meets all the requirements and  
20 conditions of the original approval. This provision applies to wireless support structures  
21 which are approved on or after December 1, 2007.

22  
23 (2) An application for collocation meets the requirements entitling an applicant to  
24 streamlined collocation procedures if all of the following conditions exist:

25  
26 (a) The collocation does not increase the overall height and width of the tower or  
27 wireless support structure to which the wireless facilities are to be attached.

28  
29 (b) The collocation does not increase the ground space area approved in the site plan  
30 for equipment enclosures and ancillary facilities.

31  
32 (c) The wireless facilities in the proposed collocation comply with applicable  
33 regulations, restrictions, or conditions, if any, applied to the initial wireless  
34 facilities placed on the tower or other wireless support structure.

35  
36 (d) The additional wireless facilities comply with all federal, State and local safety  
37 requirements.

38  
39 (e) The collocation does not exceed the applicable weight limits for the wireless  
40 support structure.

41  
42 (3) An application for collocation is complete when all the necessary grounds stated in  
43 this section for entitlement to streamlined processing have been certified to by the  
44 applicant in writing or forty five (45) days after its submittal to the Town if the Town  
45 has not provided the applicant with written notice identifying the deficiencies in the  
46 application which, if cured, would make the application complete. The application  
47 shall be deemed complete on resubmission if the additional materials cure the  
48 deficiencies identified.

49  
50 (4) The Town shall issue a written decision approving or denying an application entitled  
51 to streamlined processing within forty five (45) days of the date the application is

1 complete. Failure to issue such a decision shall be deemed an approval of the  
2 application.

3  
4 (c) Requirements for wireless telecommunications sites. All wireless telecommunications  
5 sites located within the Town must comply with all of the following requirements:

6  
7 (1) Safety standards. All proposed telecommunication towers and wireless facilities  
8 shall comply with all applicable federal, state and local laws including specifically  
9 the following:

10  
11 (a) Federal Communications Commission standards, rules and regulations

12  
13 (b) Federal Aviation Administration standards, rules and regulations

14  
15 (c) N.C.G.S. § 160-400.50 et seq.

16  
17 (d) The North Carolina Building Code

18  
19 (e) Accepted industry standards for wind loading, base stabilization and other  
20 critical engineering characteristics as defined by American National Standards  
21 Institute (ANSI), Telecommunications Industry Association (TIA) and  
22 Electronic Industry Alliance (EIA).

23  
24 (2) Use guidelines and dimensional requirements.

25  
26 (a) Collocation and location.

27  
28 (i) Collocation of new antennas, wireless facilities and other equipment  
29 on an existing structure or structures within the applicant's search ring  
30 shall be required whenever reasonably feasible. Collocation is not  
31 reasonably feasible if an applicant can show it is technically or  
32 commercially impractical for the applicant to collocate or if the owners of  
33 all of the telecommunication towers within the applicant's search ring  
34 where collocation would be technically practical are unwilling to enter  
35 into a contract for such use at fair market value.

36  
37 (ii) Short telecommunications towers including the structure and fenced  
38 compound shall be designed to accommodate the wireless facilities of at  
39 least one (1) provider plus space for emergency communication antennas  
40 used by the Town's police and fire service provider.

41  
42 (iii) Tall telecommunications towers including the structure and fenced  
43 compound shall be designed to accommodate collocation of the wireless  
44 facilities of at least three (3) providers plus space for emergency  
45 communication antennas used by the Town's police and fire service  
46 provider.

47  
48 (iv) An existing use or structure on the same lot shall not preclude  
49 locating a wireless telecommunications site on that lot. The dimensions of  
50 the entire lot shall be used to determine if a telecommunications tower and  
51 associated structures meet the dimensional and setback requirements of  
52 this section.

1  
2 (v) Tall telecommunications towers shall not be located within one half  
3 (1/2) mile of any other tall telecommunications tower located within the  
4 expected geographic antenna coverage area of the proposed  
5 telecommunication tower.

6  
7 (vi) Short telecommunications towers shall not be located within two  
8 hundred fifty (250) feet of any other short telecommunications tower  
9 located within the expected geographic antenna coverage area of the  
10 proposed telecommunication tower unless the applicant can show that  
11 locating the tower within the prescribed distance will insure adequate  
12 coverage and capacity.

13  
14 (b) Height. The height of a telecommunications tower includes any attached or  
15 proposed to be attached wireless facilities and shall be measured vertically from  
16 the pre-disturbance ground level at the center of the tower.

17  
18 (i) The height of tall telecommunications towers shall not exceed one  
19 hundred ninety five (195) feet.

20  
21 (ii) The height of short telecommunications towers shall not exceed  
22 seventy (70) feet.

23  
24 (iii) In no case shall a wireless communication structure,  
25 telecommunications tower or any attached wireless facilities exceed the  
26 minimum height necessary to accomplish the purpose it is proposed to  
27 serve.

28  
29 (c) Permitted structures. Only telecommunications towers utilizing a monopole  
30 design may be permitted within the Town. Telecommunications towers using  
31 other designs, including, but not limited to guyed towers and lattice type towers  
32 shall not be permitted.

33  
34 (d) Setbacks.

35  
36 (i) The base of a telecommunications tower shall be at least located at  
37 least one (1) foot from the nearest property line for every one (1) foot of  
38 proposed tower height. The Town Council may reduce the setback  
39 requirement from this 1:1 setback ratio to a setback of 1/3 of the height of  
40 the proposed tower provided the applicant submits written certification  
41 from a accredited risk management professional not employed by the town  
42 or any party to the application that the proposed tower installation has a  
43 risk of failure no greater than currently established best practice.

44  
45 (ii) Telecommunications accessory equipment structures, any equipment  
46 enclosures and any other structures shall be set back a minimum of fifty  
47 (50) feet from all property lines and rights of way.

48  
49 (e) General aesthetics.  
50

1 (i) Telecommunication towers, wireless facilities, accessory equipment  
2 structures and equipment enclosures shall be constructed and maintained  
3 to minimize visual obtrusiveness in color and finish.

4  
5 (ii) Accessory equipment structures, equipment enclosures and related  
6 structures at telecommunication tower sites shall be of such design,  
7 materials and colors to blend with surrounding structures.

8  
9 (iii) Outdoor storage of equipment or related items shall be prohibited at  
10 all wireless telecommunication sites.

11  
12 (iv) Electrical and telephone lines serving a wireless telecommunication  
13 site shall be installed underground.

14  
15 (v) Sound emissions, such as alarm bells, buzzers and the like, shall not  
16 be permitted.

17  
18 (f) Fencing. All telecommunication towers, their accessory equipment structures  
19 and equipment enclosures shall be enclosed by chain link fencing, not less than  
20 six (6) feet nor more than ten (10) feet in height. Such fences may be equipped  
21 with anti-climbing devices. The gate into the fenced area shall be located so that it  
22 is not easily visible from a street or adjacent property.

23  
24 (g) Screening/landscaping and buffers.

25  
26 (i) The base of a telecommunications tower, to a minimum height of ten  
27 (10) feet above average grade at the tower base, shall not be visible from  
28 any thoroughfare.

29  
30 (ii) Screening is required along all exterior sides of the fence described  
31 above excluding the gate. Screening shall be a minimum width of twenty  
32 (20) feet with two (2) rows of planting material placed ten (10) feet on  
33 center, that are a minimum of five (5) feet in height when planted, and that  
34 are expected to reach a height of eight (8) feet within three (3) years.  
35 Suitable plant types shall be those recommended by the U.S. Department  
36 of Agriculture to achieve a mature growth height of eight (8) to ten (10)  
37 feet in the coastal area.

38  
39 (h) Lighting.

40  
41 (i) Telecommunication towers shall be lighted only if specifically  
42 required by the Federal Aviation Administration, in which case, Federal  
43 Aviation Administration minimum lighting requirements shall be applied.

44  
45 (ii) When lighting is required by the Federal Aviation Administration,  
46 strobe lights shall be avoided unless specified by Federal Aviation  
47 Administration. When strobe lights are required on telecommunication  
48 towers, a dual lighting system of white strobes for daytime lighting and a  
49 red flashing light atop the tower for nighttime lighting shall be used unless  
50 other lighting is specifically required by the Federal Aviation  
51 Administration.

1 (iii) Except for lighting described in (b) above, all lighting at a wireless  
2 telecommunications site shall be shielded.

3  
4 (i) Signage. Wireless telecommunication sites shall not display signage, logos  
5 symbols or any messages of a commercial or non-commercial nature. A sign, not  
6 visible from a public right-of-way or adjacent residences, shall be posted on the  
7 fence gate identifying the current owner of the tower, emergency contact person  
8 or agency, and applicable contact numbers.

9  
10 (3) Application requirements. An application shall not be deemed complete until all  
11 of the following items required have been submitted:

12  
13 (a) Documentation showing the reasonable feasibility of collocating new  
14 antennas, wireless facilities and equipment on an existing structure or structures  
15 within the applicant's search ring. If an applicant contends that collocation on an  
16 existing structure is not reasonably feasible he shall submit documentation that (1)  
17 collocation is technically or commercially impractical; or (2) the owner of the  
18 telecommunication tower is unwilling to enter into a contract for such use at fair  
19 market value. At a minimum, technical documentation shall include a map of the  
20 search ring displaying all potential collocation sites and stating why each is  
21 suitable or unsuitable. Where an applicant contends that the owner or an existing  
22 telecommunications tower or other feasible structure will not contract for its use  
23 for fair market value, the applicant must submit, in writing, a declaration from  
24 owners of all technically feasible collocation sites stating the price at which they  
25 are willing to negotiate space, evidence that the applicant has tried in good faith to  
26 negotiate market value terms for the collocation and an expert appraiser or  
27 economist's opinion on what the market value of such a collocation at the site  
28 should be.

29  
30 (b) A scaled site plan, scaled elevation view, and supporting drawings,  
31 calculations and other documentation, prepared and sealed by appropriate licensed  
32 professionals, showing the location and dimensions of all improvements including  
33 topography, telecommunications tower height requirements, setbacks, access  
34 driveways or easements, parking, fencing, landscaping, adjacent uses and any  
35 other information necessary to assess compliance with this article and  
36 compatibility with surrounding uses.

37  
38 (c) Documentation that Federal Aviation Administration's minimum lighting  
39 standards have been applied.

40  
41 (d) Documentation that the proposed tower, antennas and equipment comply  
42 with all applicable FCC regulations.

43  
44 (e) Documentation, prepared and sealed by a professional engineer registered in  
45 North Carolina, that the proposed telecommunication tower and any attached  
46 wireless facilities and antennas meet or exceed accepted industry standards for  
47 wind loading, base stabilization and other critical engineering characteristics as  
48 defined by American National Standards Institute (ANSI), Telecommunications  
49 Industry Association (TIA) and Electronic Industry Alliance (EIA).

50  
51 (f) Documentation, prepared and sealed by a professional engineer registered in  
52 North Carolina, that the proposed telecommunication tower and any attached

1 wireless facilities and antennas do not exceed the minimum height necessary to  
2 accomplish the purpose for which they are constructed.

3  
4 (g) A notarized statement by the owner or an officer of the owner specifying the  
5 number of wireless facilities that may be collocated on the telecommunications  
6 tower once constructed.

7  
8 (h) Documentation, prepared and sealed by a professional engineer registered in  
9 North Carolina, to demonstrate that the telecommunication tower has sufficient  
10 structural integrity for its intended uses. Documentation shall include a  
11 certification that all telecommunication towers and attached wireless facilities  
12 shall be capable of withstanding sustained winds of at least one hundred thirty  
13 five (135) miles per hour.

14  
15 (i) If the proposed tower or antenna is to be located on lands owned by a party  
16 other than the applicant or the town, a copy of the lease agreement with the  
17 property owner along with copies of any easement agreements necessary for  
18 ingress, egress and use of the property.

19  
20 (j) Documentation consisting of a certificate of insurance verifying the existence  
21 of a general liability insurance coverage of at least one million dollars  
22 (\$1,000,000.00) at no cost to the town. The certificate shall contain a requirement  
23 that the insurance company notify the town thirty (30) days prior to the  
24 cancellation, modification, or failure to renew the insurance coverage required.

25  
26 (k) A copy of the approved National Environmental Policy Act of 1969 (NEPA)  
27 compliance report for all telecommunication towers, antennas, wireless facilities,  
28 accessory structures or equipment proposed for the site.

29  
30 (l) A memo of understanding regarding removal of abandoned structures on  
31 wireless telecommunication site. Any wireless telecommunications site that is not  
32 operated for one hundred eighty (180) continuous days in a twelve (12) month  
33 period shall be considered abandoned. The owner of an abandoned wireless  
34 telecommunications site shall be responsible for the removal of all structures and  
35 equipment on the site within ninety (90) days of receipt of such notification by the  
36 town. Failure to remove abandoned equipment will result in its removal by the  
37 town at the owner's expense. In its discretion, the town may condition approval of  
38 a permit for building of the proposed telecommunications tower on the applicant  
39 providing a bond or letter of credit sufficient to allow the town to remove the  
40 proposed structure if it is abandoned and not removed within the allowed time  
41 period by the applicant.

42  
43 (m) Any other documentation necessary to ensure compliance with this section.

44  
45 (4) Review process. The planning board will use the following criteria in its review of  
46 an application for any wireless telecommunication site, telecommunication tower,  
47 wireless facility, antennae or accessory structure.

48  
49 (a) The use is a public necessity.

50  
51 (b) The facility will not materially endanger the public health or safety if located  
52 where proposed and developed according to the plan submitted.

1  
2 (c) The required conditions, specifications, and actions described in this article  
3 have been met.

4  
5 (d) The location and character of the facility will be in harmony with the area in  
6 which it is to be located.

7  
8 (5) Consultants. The Town may fix and charge an application fee, consulting fee, or  
9 other fee associated with the submission, review, processing, and approval of an  
10 application to site or modify wireless support structures or wireless facilities that is based  
11 on the costs of the services provided and does not exceed what is usual and customary for  
12 such services. Any charges or fees assessed by the Town on account of an outside  
13 consultant shall be fixed in advance and incorporated into a permit or application fee and  
14 shall be based on the reasonable costs to be incurred by the Town in connection with the  
15 regulatory review of an application. The town may impose additional reasonable and cost  
16 based fees for costs incurred should an applicant amend its application. On request, the  
17 amount of the consultant charges incorporated into the permit or application fee shall be  
18 separately identified and disclosed to the applicant.

19  
20 (6) Conditions. The Town Council may place reasonable conditions on the issuance of a  
21 conditional use permit pursuant to this section regarding public safety, land use, or  
22 zoning issues, including, but not limited to, aesthetics, landscaping, land-use based  
23 location priorities, structural design, setbacks, and fall zones.

24  
25 (7) Validity of Permits. A conditional use permit or zoning permit issued pursuant to this  
26 section shall expire if the improvements permitted are not completely constructed within  
27 twenty four (24) months of the date of the approval of the permit.

28  
29 **ARTICLE IV. Severability.**

30  
31 All Ordinances or parts of Ordinances in conflict with this Ordinance are hereby repealed.  
32 Should a court of competent jurisdiction declare this Ordinance or any part thereof to be invalid,  
33 such decision shall not affect the remaining provisions of this Ordinance nor the Zoning  
34 Ordinance of the Town of Southern Shores, North Carolina which shall remain in full force and  
35 effect.

36  
37 **ARTICLE V. Effective Date.**

38  
39 This ordinance shall be in full force and effect from and after the \_\_\_\_ day of \_\_\_\_\_,  
40 2009.

41
