## **Town of Southern Shores**

5375 N. Virginia Dare Trail, Southern Shores, NC 27949 Phone 252-261-2394 / Fax 252-255-0876 www.southernshores-nc.gov

O	
9	MEETING MINUTES
10	SPECIAL PLANNING BOARD MEETING-AUGUST 9, 2023, 5:00 P.M.
11	LOCATION: PITTS CENTER-5377 N VIRGINIA DARE TRAIL, SOUTHERN SHORES, NC 27949
12	
13	
14	CALL TO ORDER:
15	Vice Chairperson DiBernardo called the meeting to order at 5:00 pm. Planning Board Members Ed
16	Lawler, Robert McClendon, Jan Collins, Michael Zehner, Tony DiBernardo (Vice Chairperson), and
17 18	Deputy Town Manager/Planning Director Wes Haskett were present.
19	PLEDGE OF ALLEGIANCE:
20	Vice Chairperson DiBernardo led the Pledge of Allegiance.
21	
22	APPROVAL OF AGENDA:
23	Motion made by Planning Board Member Collins to approve the agenda as presented, Seconded by
24	Planning Board Member Lawler. The motion passed unanimously.
25	
26	PUBLIC COMMENT
27	None
28	
29	NEW BUSINESS
30	Draft Land Use Plan Update
31	Andrea Radford from Steward, Inc. presented a PowerPoint Presentation highlighting the Draft Land
32	Use Plan.
33	
34	What's a comprehensive land use plan?
35	•a way to collect and agree on a shared community vision
36	•helps leadership prioritize community goals
37	•guide rezonings and land development decisions
38	•mandated by the state (condition of adopting and applying zoning regulations)
39 40	<ul> <li>a community conversation about shared goals and values</li> </ul>
+0 41	CAMA PLAN TOPICS
1 1	CANTAL EARLY OF ICO

Required by State / Coastal Resource Commission (CRC) For Coastal Communities.

• Land use management topics

Land use compatibility

Public access (to public trust waters)

137 Environment 138 Public gathering space 139 140 **IMPLEMENTATION** 141 • Provides timeframe to assist in accomplishing plan goals 142 • Outlines when action needs to be taken by staff or boards 143 144 **NEXT STEPS** 145 • Recommendation to town council with or without changes 146 • Forward the plan to DCM for review 147 Adoption by town council 148 • Certification of the plan 149 Following Andrea Radford's presentation, she added that staff has requested some revisions to page 150 151 50, 54 and 78 of the draft plan and then requested comments or questions from the Planning Board. 152 153 Vice Chair DiBernardo offered the following: The community vision statement contains recreation 154 facilities, maritime forests, and open space, and he suggested canals would be appropriate to be 155 placed in there as the canals are a major item. On page 14 under existing land use, the cemetery was 156 left out. On page 16 he suggested adding Hickory, Hillcrest, and Wax Myrtle to the congested 157 roadway list. The mention of commercial was left out when addressing septic systems, and the final 158 item on page 22, the brief history is a run on sentence and should be addressed. 159 160 Planning Board Member Collins commented that on page 48 it references page 45 and that is a blank 161 page. 162 163 Planning Board Member Zehner commented that the title should reflect both the Comprehensive 164 Plan and the Cama Land Use Plan and on page 6 the difference between the two should be clarified. 165 He also provided that the Planning Board provided some word smithing points to the Vision 166 Statement, and they do not seem to be incorporated into this draft. 167 Planning Board Member Zehner asked for the process in which the plan will go. Andrea Radford, 168 169 Stewart Inc. stated the process is the Planning Board makes a recommendation to Town Council to 170 adopt it, then it will go to the Town Council, and they will recommend sending it to DCM (Division of 171 Coastal Management) for the initial staff completeness review. After revisions are made it will go 172 back to the Town Council for adoption. 173 174 Planning Director Haskett stated it will come back to the Planning Board, if necessary, after review 175 from DCM before going to council for adoption. 176 Planning Board Member Collins stated what stood out to her most was the water quality and poor 177 178 soil. It should be a wake-up call and there is a need for more testing. She inquired if there should be 179 something added to the document, an aspiration for more testing perhaps. Andrea Radford, Stewart

Inc., stated there is a recommendation within the plan to look at efforts to look at water quality.

180

181

Planning Director Haskett stated in reference to the SSCA (Southern Shores Civic Association) doing water quality testing, the plan states the Town may start a new program or assist the SSCA with their program, leaving flexibility for the town.

Vice Chairperson DiBernardo added that a survey was conducted of what was causing some of the water pollution. People thought it was the septic system at that time but according to whoever they hired to come out, they said a lot of it was water runoff from people's lawns. The different chemicals being used and having reactions to each other were causing the problems.

Planning Board Member Collins asked if Southern Shores was doing any water quality testing?

Planning Director Haskett stated they are not at the moment, but the recommendation in the plan is to start.

Planning Board Member McClendon commented that he understands this is not a scientific paper but there were quite a few comments made that were just sort of general facts that should have been cited.

Planning Board Member Lawler stated there was an attempt to monitor the water quality but there are no parameters, it needs to be quantified by a new agreed upon system.

Planning Board Member Collins asked who did the testing mentioned on page 56 and what is the process.

Planning Board Member Zehner stated the Town of Nags Head conducted water sampling that they contracted out and eventually purchased the equipment and did it all in-house. The issue is what are you doing with the information once you have it. The testing mentioned in the plan was done by Marine Fisheries and maybe they still do it periodically. The Town could do its own sampling but if you get a bad number what are you doing with that information?

Vice Chairperson DiBernardo stated the water quality testing is under aspirations for the plan. He asked the board members if they had any other comments or suggestions.

Vice Chairperson DiBernardo referenced his earlier comment about Town property and the addition of the cemetery, he stated he meant to include the canals too.

Planning Board Member Lawler referenced page 46 where it says there are no wells, it should say there is no public water supply. He also suggested on page 42 towards the bottom Southern Shores consists of marshes, sediment banks, miscellaneous and it should just say, sediment banks and hardened shoreline. Andrea Radford, Stewart Inc., stated that the "miscellaneous "is a category in the data set.

Planning Board Member Zehner suggested placing the term "miscellaneous" last in the order, to help it make more sense.

Planning Board Member McClendon suggested on page 86 under Land Use Compatibility and Community Character replacing the term "founders" with community vision or the original Vision Statement should be referenced.

Andrea Radford, Stewart Inc., asked Planning Board Member McClendon if his preference would be to use the term "community vision" rather than "founders", to which Mr. McClendon agreed. Mr. McClendon stated what really counts is what our vision is today.

Planning Board Member McClendon asked that the common facts referenced in the plan be cited, such as the information referenced on sea level rise. He also mentioned that the term "Maritime Forest" is used but what people really care about is the tree canopy and suggested using that wording. He stated it is more than a maritime forest, it is maintaining the tree canopy and it should be in the Vision Statement.

Vice Chairperson DiBernardo suggested changing the Vision Statement to say, tree canopy which includes the maritime forest, or something similar.

Andrea Radford, Stewart Inc., stated this will change some of the action items on page 103 and asked the board if they would like to include tree canopy. Planning Director Haskett stated that 10.1 on that page refers to monitoring forest cover and canopy but felt including tree canopy would keep it consistent.

Planning Director Haskett polled the board members, as he stated there are mixed views and especially from the public comments, but there are references to three other jurisdictions in the document, the Town of Manteo, Town of Nags Head septic program and Pine Knoll Shores as examples of things that are being done, as they relate to what's being referenced in the document. He asked if the members had any objections to those references and the way they're shown in the document or did they agree with using them.

Planning Board Member Zehner stated best practice examples are always good.

Vice Chairperson DiBernardo felt it solidifies things and provided examples.

Planning Board Member McClendon asked if referencing another town's ordinance was controversial, Planning Director Haskett felt it was not.

Hearing no further comment, Andrea Radford with Stewart Inc.'s presentation was complete.

Vice Chairperson DiBernardo asked Planning Director Haskett the best way to expedite the plan. Mr. Haskett stated the changes could be made and the plan brought back again for review by the Planning Board or a recommendation for approval with the changes could be made to the Council.

Planning Board Member Zehner felt that the completeness review could be lengthy and recommended forwarding it to Council with the changes noted. He stated that way any additional changes the Council makes will be forwarded to DCM and then it comes back to the Planning Board after DCM reviews it. The Planning Board then can review it to make sure they captured everything.

272 MOTION: Vice Chairperson DiBernardo moved to approve the Land Use Plan with changes noted 273 tonight that the Board has made, the corrections and changes, and be forwarded to Town Council, 274 Seconded by Planning Board Member Zehner.
