

TOWN OF SOUTHERN SHORES SPECIAL ANNOUNCEMENT

Hurricane Dorian Debris Pick-up Schedule

The storm debris pick-up contractor for the Town of Southern Shores will initiate pick-up on **Monday, September 23rd** for all public and private streets in Southern Shores. Please have all debris set out in piles in the town right-of-way or on the edge of the pavement by or before the scheduled pick-up date.

Residents are urged to place debris in separate piles that consist of either vegetative debris or construction and demolition debris in the right-of-way or on the edge of the pavement.

- Vegetative debris (consists of tree parts, limbs, branches, leaves, etc)
- Construction and Demolition debris (consist of shingles, siding, boards, wallboard, etc)

Please do not place any debris on the actual street pavement. By segregating the types of debris residents will have their piles picked up on schedule without further delay.

- **This pick-up is for storm generated debris only.**
- The storm debris pick-up will consist of one pass through Town.

- Due to Hurricane Dorian and the amount of debris to be picked up, the **annual fall bulk /large item pick-up will occur in November** rather than October. Bulk item pick-up is a separate pick-up from the storm debris pick-up. Please save the household bulk items for that fall pick-up.

A message from the Dare County Fire Marshal...

Please pile storm related
debris at least 30 feet from
fire hydrants.
